Capacity

In our facilities -over 8,500 m² of workshops and offices in an extensive parcel of nearly 21,000 m²- a highly qualified workforce, counting with the latest technological advances, develops its work capable of manufacturing our busbodies bringing the adequate solutions to the needs of citybus transport at every moment.

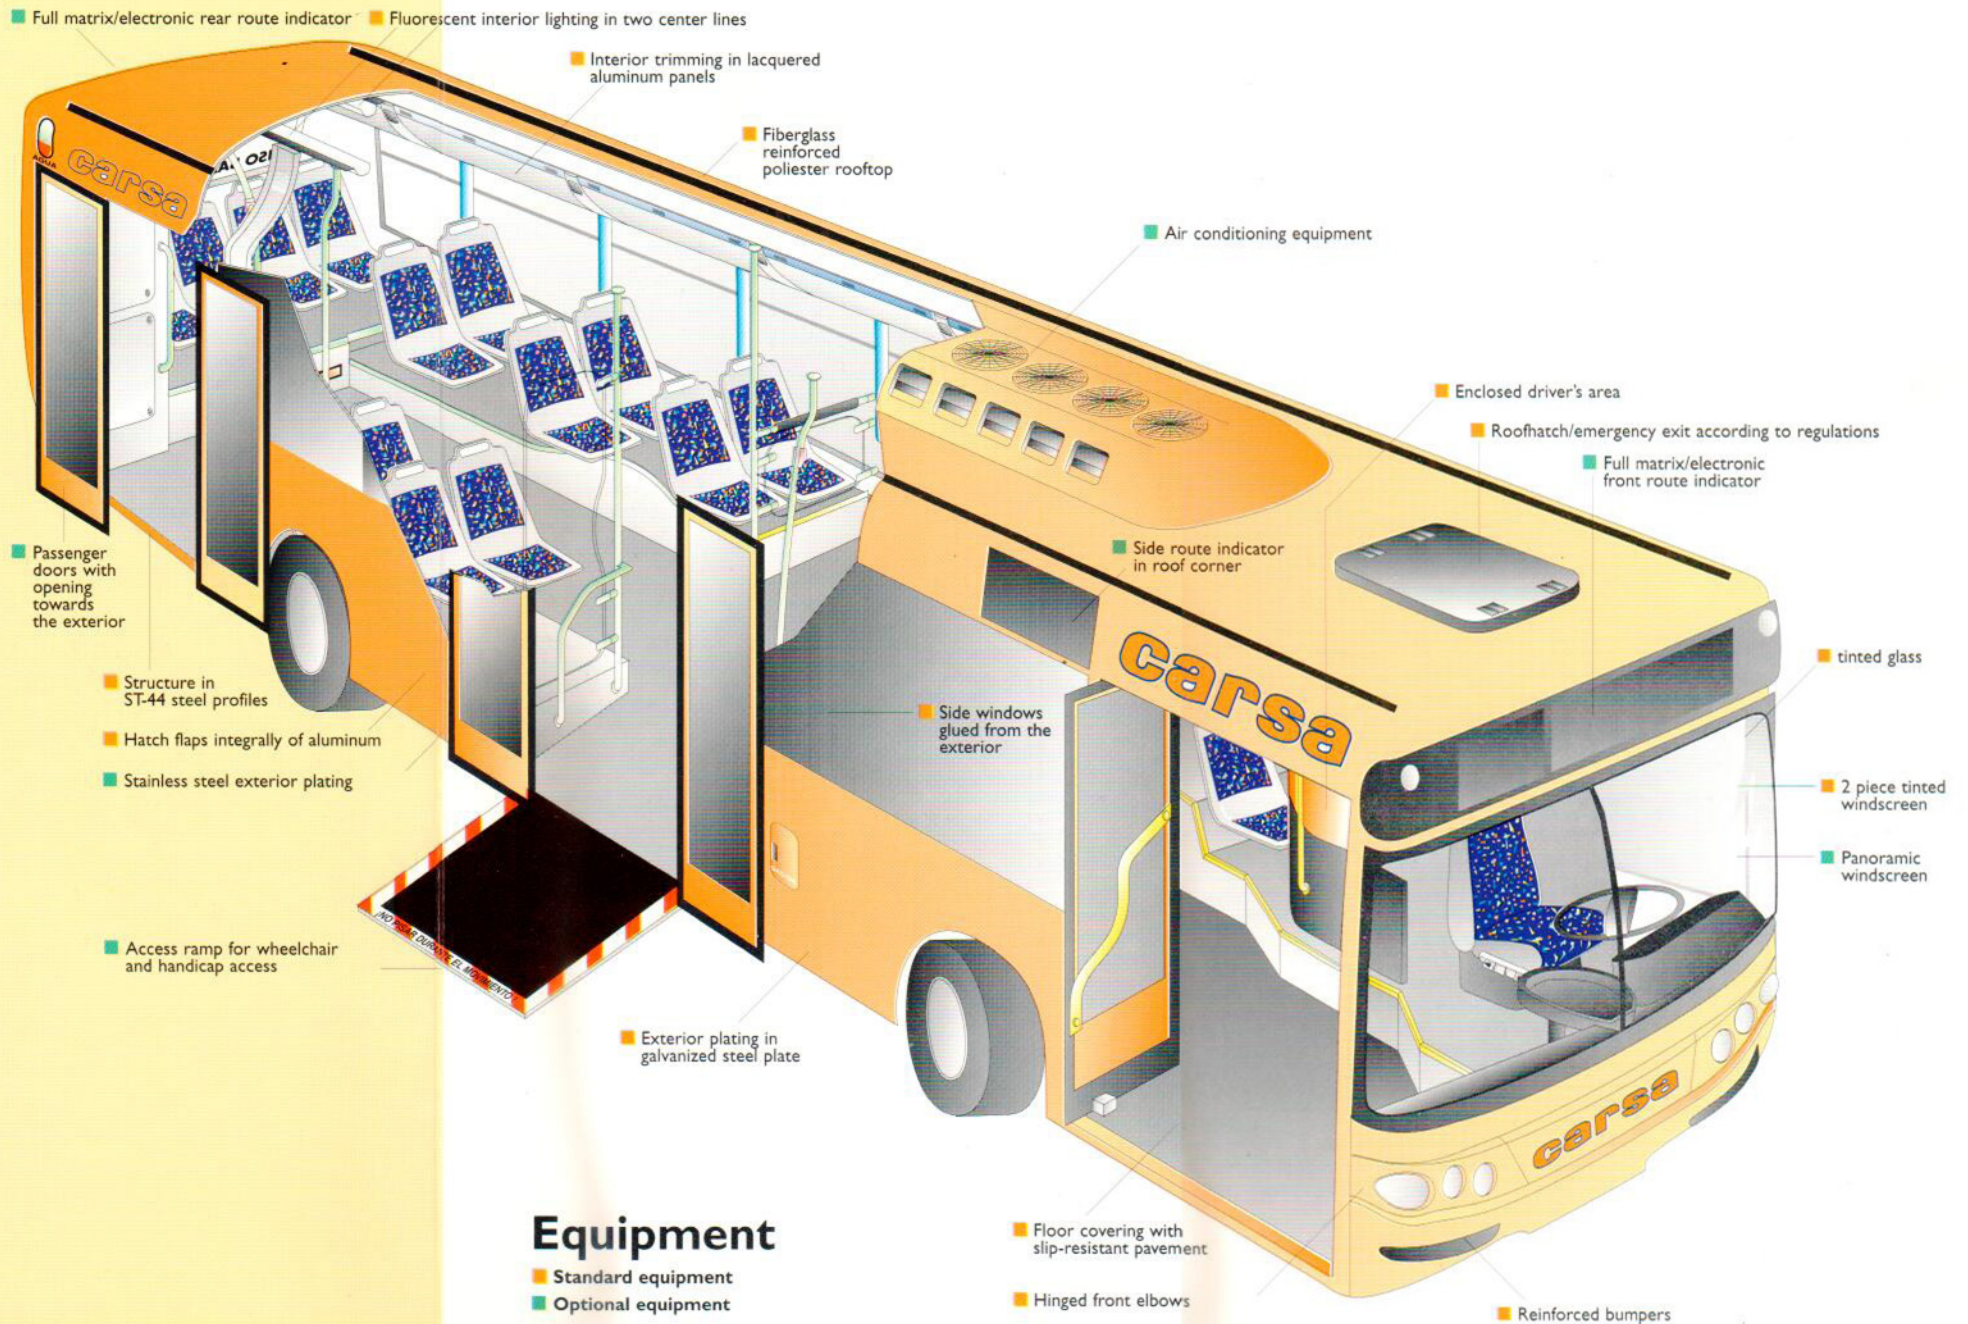

carsa

A+ in response

Carsa

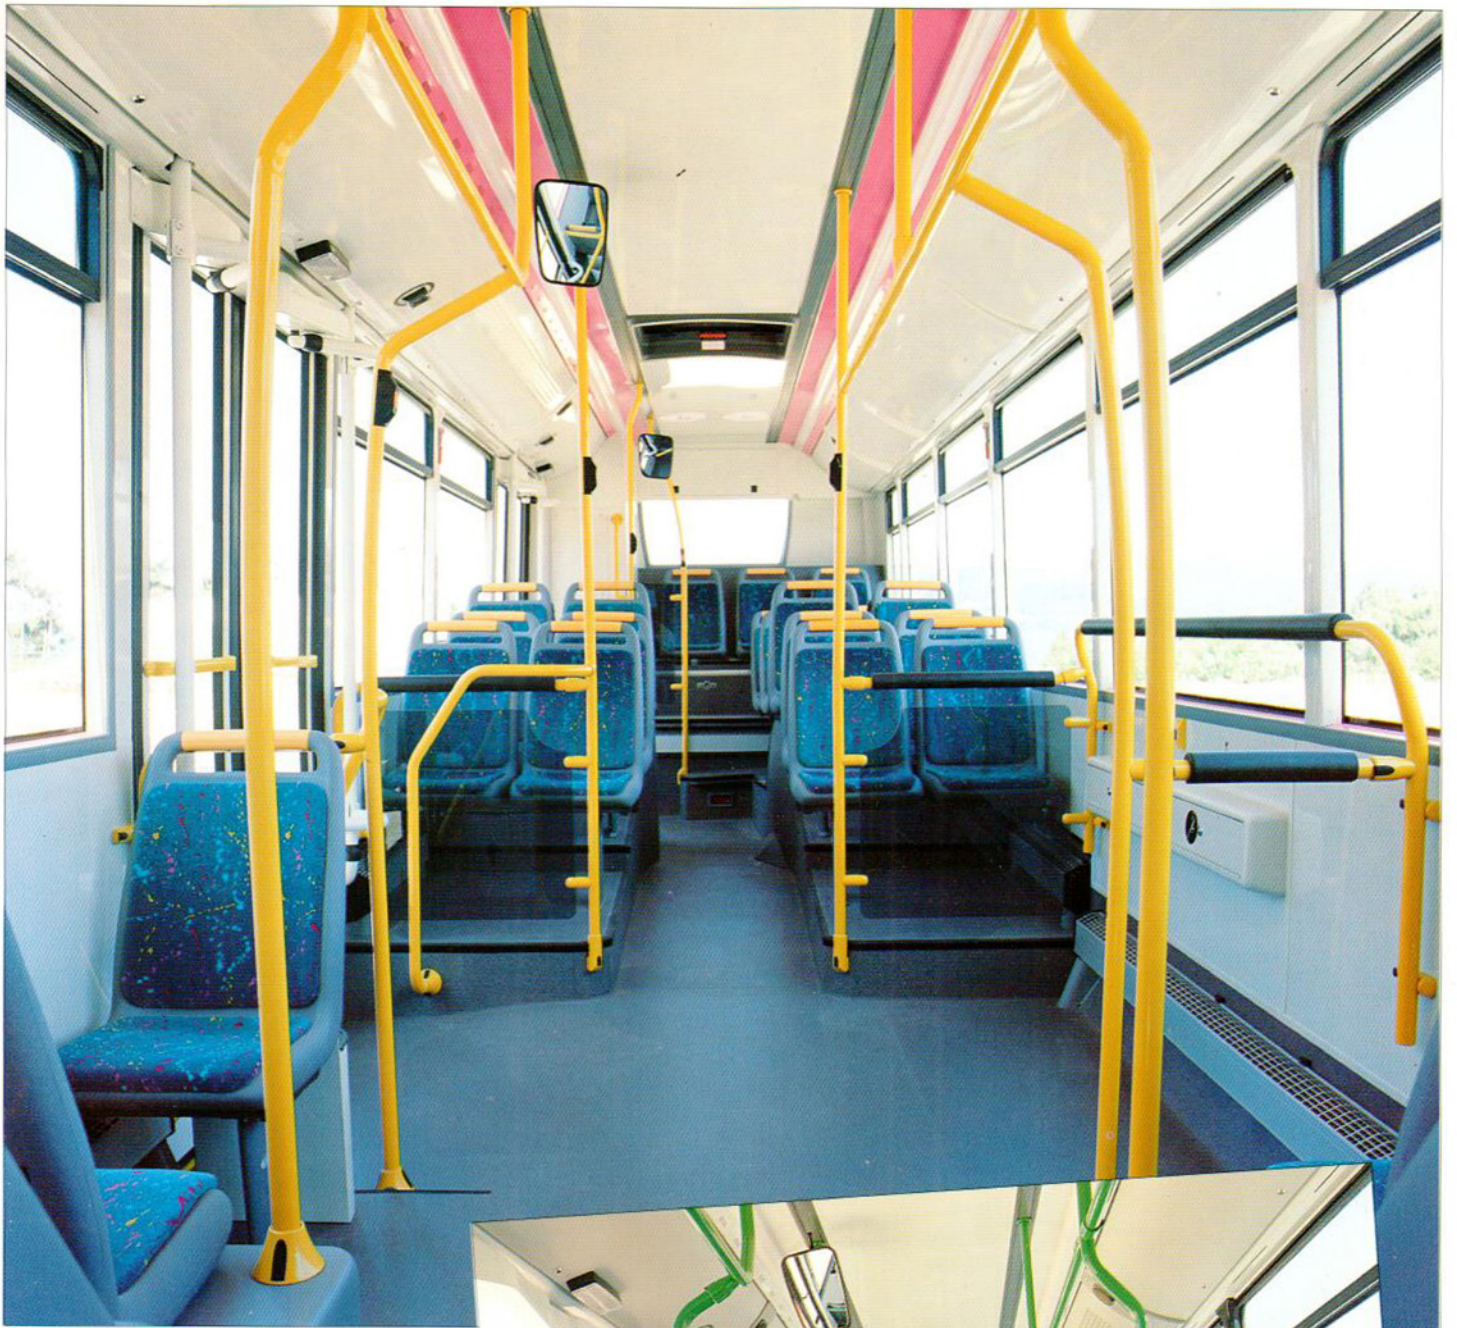

Our busbodies bid for the maximum functionality for which we have developed an optimized manufacturing process, enabling us to ensure our customers a final product which has previously passed the strictest quality assurance requirements.

Carsa. We produce quality.

Equipment

- Standard equipment
- Optional equipment
