A single module satisfies many different needs.

5001

tradition and technology: transportation for cities on the move

5001.12 the intercity bus

The beginning of a
wonderful trip:
a wonderful bus!

Rational elegance, soft and comfortable upholstery: the luxurious interior of the 5001.12.

Large and easily
accessible
baggage compartment

Complete access and no wasted space with the full-length luggage compartment.

Bredabus and
Pininfarina:
a team that makes
technology an art

Precise designing, purity of line and simple logic like compartment doors that open vertically to reduce outside clearances.

Advanced construction
techniques,
a chassis
known for reliability,
easy access to the
mechanical parts

Complete access for inspection and maintenance

The modular structural parts and furnishings are interchangeable on all bus lengths, for economy in spare parts' management.

Air conditioning,
radio-TV,
refrigerator bar,
quiet operation
and a sleek
aereodynamic shape

Maximum passenger comfort.

The classic chassis can take different engines; independent front wheel suspension, disc brakes and triangular frame rear suspension.

Italian automotive
technology and styling
and a choice of
different engines
